Dear Sir:

I, Gordon Vehar, declare as follows:

1. I am the Vice President of Research and Development for the assignee of the above-referenced patent application.

2. The host cell line listed below and described in the above-referenced application was deposited at the American Type Culture Collection at 10801 University Boulevard, Manassas, VA 20110-2209, and was given Accession Number PTA-4220. A true photocopy of the Receipt of Deposit of the host cell line is attached hereto.

Deposited Material	Accession Number
Mouse Hybridoma: 1hFT.1.6D4.1C8	PTA-4220

3. The above host cell line has been deposited under conditions which assure that access to the cell line will be irrevocably available during pendency of the patent application to one determined by the Assistant Commissioner to be entitled thereto under 37 C.F.R. § 1.14 and 35 U.S.C. § 122 and, upon issuance of any patent on the above-identified application, to the general public without restriction; and that said deposited cell line shall be stored with the care necessary to keep it viable and uncontaminated for a period of at least five years after the most recent request for the furnishing of a sample of the deposited culture and in any case, for a period of at least 30 years after the date of deposit or for the enforceable life of the patent, whichever period is longer.

4. If the cell line is lost or destroyed, that the cell line will be replaced in the respective depository for the period stated above.

5. I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further, that these statements are made with the knowledge that willful, false statements and the like so made are punishable by fine or imprisonment or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Respectfully submitted,

Dated: December 28, 2006

Patent Deposit Designation

PTA-4220

The deposit was accompanied by: ☐ a scientific description ☐ a proposed taxonomic description indicated above.

The deposit was received April 9, 2002 by this International Depository Authority and has been accepted.

AT YOUR REQUEST: ☒ We will inform you of requests for the strain for 30 years.

The strain will be made available if a patent office signatory to the Budapest Treaty certifies one's right to receive, or if a U.S. Patent is issued citing the strain, and ATCC is instructed by the United States Patent & Trademark Office or the depositor to release said strain.

If the culture should die or be destroyed during the effective term of the deposit, it shall be your responsibility to replace it with living culture of the same.

The strain will be maintained for a period of at least 30 years from date of deposit, or five years after the most recent request for a sample, whichever is longer. The United States and many other countries are signatory to the Budapest Treaty.

The viability of the culture cited above was tested April 12, 2002. On that date, the culture was viable.
